

Johns Creek Transportation Master Plan

2030 Recommended Functional Classification

Revision Date: February 22, 2016
 The City of Johns Creek completed the Transportation Master Plan on 11/10/2008 and it included the 2030 Recommended Functional Classification map. This map has been revised to reflect the pending request from the City of Johns Creek to the ARC and GDOT as they revise functional classifications statewide. The following information has been revised:

1. Revised Old Alabama Rd to Minor Arterial between Jones Bridge Rd and Medlock Bridge Rd
2. Revised Jones Bridge Rd to Minor Arterial between Douglas Rd and McGinnis Ferry Rd
3. Revised Nesbit Ferry Road to Minor Arterial
4. Added Johns Creek Pkwy, Wilson Rd, Medlock Crossing Pkwy, Lakefield Dr & Technology Circle, Rogers Circle, Taylor Rd, Findley Rd, Hospital Pkwy & E. Johns Crossing as collectors

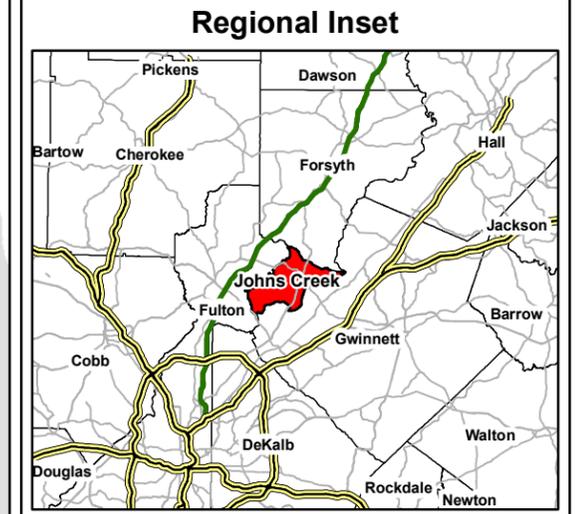

Figure T-4
