City of Johns Creek
11360 Lakefield Drive
Johns Creek, GA 30097

RE: CAMDEN HALL SUBDIVISION
JOHNS CREEK, GA

To whom it May Concern:

Maxwell-Reddick and Associates, Inc. respectfully submits the following trip generation estimates for the referenced project. The development has increased the number of vehicles per day on Jones Bridge Road. The following is a projection of weekday trip generation, including AM and PM peaks.

| | Average Number of Trips | Directional Distribution |
|------------------------|-------------------------|----------------------------|
| Weekday | 187 | 50% Entering / 50% Exiting |
| Weekday AM Peak | 14 | 26% Entering / 74% Exiting |
| Weekday PM Peak | 18 | 63% Entering / 37% Exiting |

The provided trip generation estimates are based on data found in the Institute of Transportation Engineers (ITE) *Trip Generation Manual, 11th Edition*. Should you have any questions regarding the data provided, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'DLH', is placed above the printed name.

David L. Hendrix, P.E.
