To Whom It May Concern:

Engineering303 respectfully submits the below trip generation estimates for the above referenced project. The tables below show the estimated traffic increase and weekday trip generations by the proposed residential development on Buice Road.

**ITE Vehicle Trip Generation Rates (8<sup>th</sup> Edition):**

Use	Units	Weekday	AM	PM	AM In	AM Out	PM In	PM Out
Single Family Residential	2.7 Acres	26.04	2.06	2.74	31%	69%	66%	34%

**Total Trips:**

Use	Units	Total Generated Trips			Total Distribution of Generated Trips			
		Daily	AM	PM	AM In	AM Out	PM In	PM Out

For this assessment, E303 considered proposed dwelling units and site acreage. The provided trip generation estimates are based on data found in the Institute of Transportation Engineers (ITE) Trip Generation Manual, 8<sup>th</sup> Edition (see enclosure).
