

Barnwell Road at Holcomb Bridge Road

Project Current Phase:

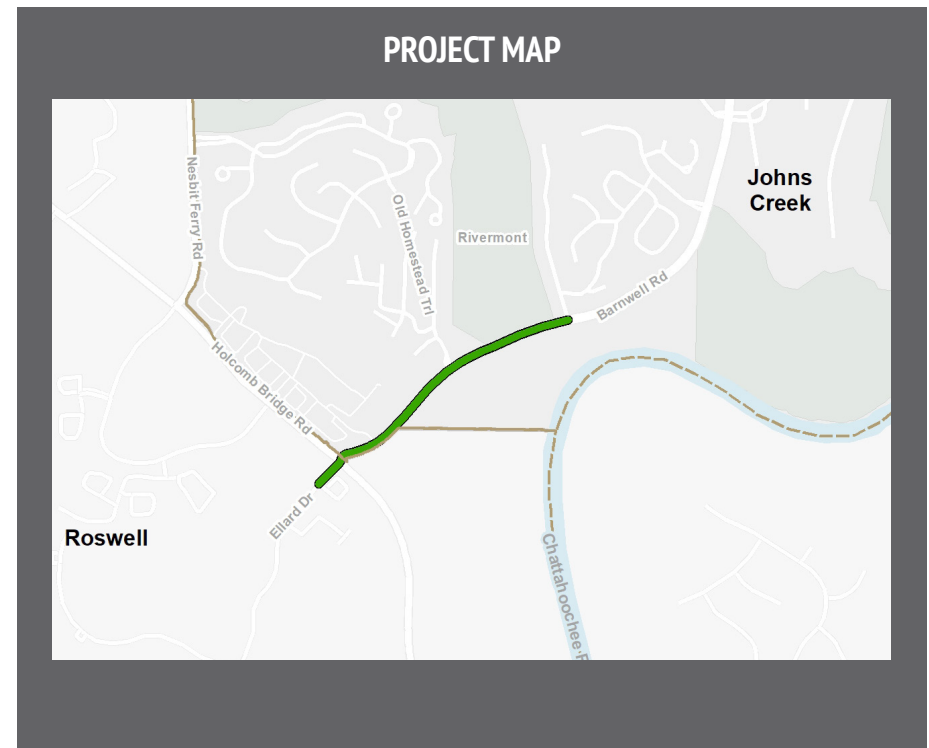

Where: Barnwell Road at Holcomb Bridge Road

Why: Safer, smoother travel

Who: City of Johns Creek, City of Roswell

When: Construction in summer 2020; anticipated completion 2022

Current Issues:

- Safety and crashes; traffic flow through intersection
- Accidents due to steep grade/poor sight distances
- Congestion during rush hours
- Lack of accessibility for pedestrians

Proposed Solution:

- Add turn lanes; reshape and regrade intersection to help traffic flow
- After engineering, current estimate: \$5.8 million
- City received \$1.6 million in state funds from GDOT / ARC

Anticipated Results:

- Modeled improvements reduces delay by 78% or 3 minutes and 3 seconds/car
- Overall project reduces 309 hours of delay each day (considering volume)
