RE: Deck Extension – Variance Needed – BLDR-22-0563

To Whom It May Concern:

We are in the permit process of a deck replacement & expansion. We are replacing a 12x20 deck with a 16x25 deck w/ new handrail and steps. Part of the current deck is already in the stream buffer and it appears that part of the deck expansion is going to be in the stream buffer as well.

We would like your approval to move forward with this deck replacement and expansion as shown on the site plan provided.

Thanks,

A handwritten signature in blue ink, appearing to read 'Arch Winston', with a stylized flourish at the end.
